

00_AI_BIBLE.md - Version 2.0

Purpose

Primary constitution for Nasdaq Scanner. Every AI assistant must follow this document.

Vision

An autonomous AI system that discovers, evaluates, improves and operates trading strategies.

Core Products

AI Factory, Strategy Library, Historical Tests, Paper Trading, Decision Journal, Live Trading (future), ISK Accounting (future).

Core Philosophy

The user defines goals; the AI performs the work. Product before technology. One source of truth. Safety before profit.

Strategy Lifecycle

Idea → Generated → Historical Testing → Learning → Paper Trading → Evaluation → Live Trading → Retirement.

Long-Term Goal

Discover → Test → Learn → Improve → Paper Trade → Evaluate → Promote → Live Trade → Monitor → Improve Again.

Rules

Never duplicate business logic. Never expose unnecessary technical details. Live Trading always requires human approval.
